

Ringmore Neighbourhood Plan

Public consultation on The Ringmore Neighbourhood Plan ended on the 18th December 2020 with contributions from statutory bodies and local residents.

The Steering Group will meet late in January to consider these comments and make any necessary adjustments. The plan will then officially enter Regulation 15 which is the submission to SHDC for approval. The Steering Group has been taking advice from an SHDC officer during the Regulation 14 stage and so it is hoped that there will be no major problems with its adoption by the full council of SHDC at this stage.

After Regulation 15, the following stage is submission to a Government Planning Inspector who may ask for further changes.

Each stage of the process requires at least six weeks consultation plus the time for amendments etc. The process cannot be completed with a parish referendum before May, due to Covid Restrictions on elections etc. but it is hoped we will be ready around that time to finalise the document and for it to pass into planning law. This may depend on how much of a queue of similar plans from other parishes are requiring attention at that time.
